Claims 30-44, 46-54 and 86 are allowed.

Applicants' arguments relating to the prior art of record is persuasive.

Claims 55-57, 59-85 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation of the way the solid fat content is measured is unclear because the IUPAC method and number might be expected to change from year to year. Further Applicant has not supplied a copy of the IUPAC method. The solid fat content of fats is known in the art as a measure of a property of fat at a given temperature. It is not seen that the specific method used to measure the solid fat content adds any clarity to the claim. It is suggested that applicant cancel the phrase "the solid fat content being measured according to IUPAC method 2.150a". Cancellation of this phrase would overcome the rejection.

A phone call to Mark Cohen on June 14 did not result in result in a resolution to this issue.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The prior art of record shows the state of the art relating to cocoa butter substitutes and equivalents.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
